

IN THE CLAIMS

Please amend claims 4, 6, 9, 10, 12, 14, 15, 21 and 22 as follows:

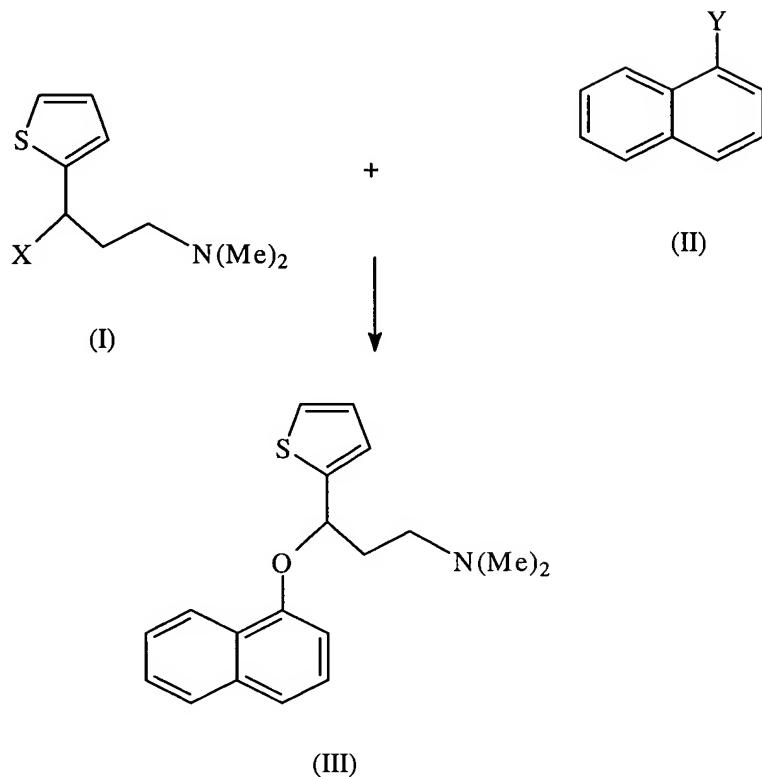

1. (Original) A process for preparing (+)duloxetine, or an acid addition salt thereof, which process comprises:
  - (i) resolving racemic ( $\pm$ )duloxetine with a chiral acid so as to obtain a salt of the chiral acid and (+)duloxetine, substantially free of (-)duloxetine; and
  - (ii) if desired, converting the salt prepared in step (i) to the free base or a further acid addition salt.
2. (Original) A process according to claim 1, wherein the chiral acid is selected from the group consisting of mandelic acid, tartaric acid, di-p-tolyl tartaric acid, dibenzoyl tartaric acid and camphor sulfonic acid.
3. (Original) A process according to claim 2, wherein the chiral acid is di-p-tolyl tartaric acid.
4. (Currently Amended) A process according to ~~any of claims 1 to 3~~ claim 1, wherein step (ii) comprises reacting a salt prepared in (i) with hydrochloric acid to yield (+)duloxetine hydrochloride.
5. (Original) A process for preparing (+)duloxetine hydrochloride, which process comprises:

- (i) resolving racemic ( $\pm$ )duloxetine with di-p-tolyl tartaric acid so as to obtain (+)duloxetine di-p-tolyl tartrate, substantially free of (-)duloxetine; and
- (ii) converting (+)duloxetine di-p-tolyl tartrate prepared in step (i) to (+)duloxetine hydrochloride.

6. (Currently Amended) A process which comprises:

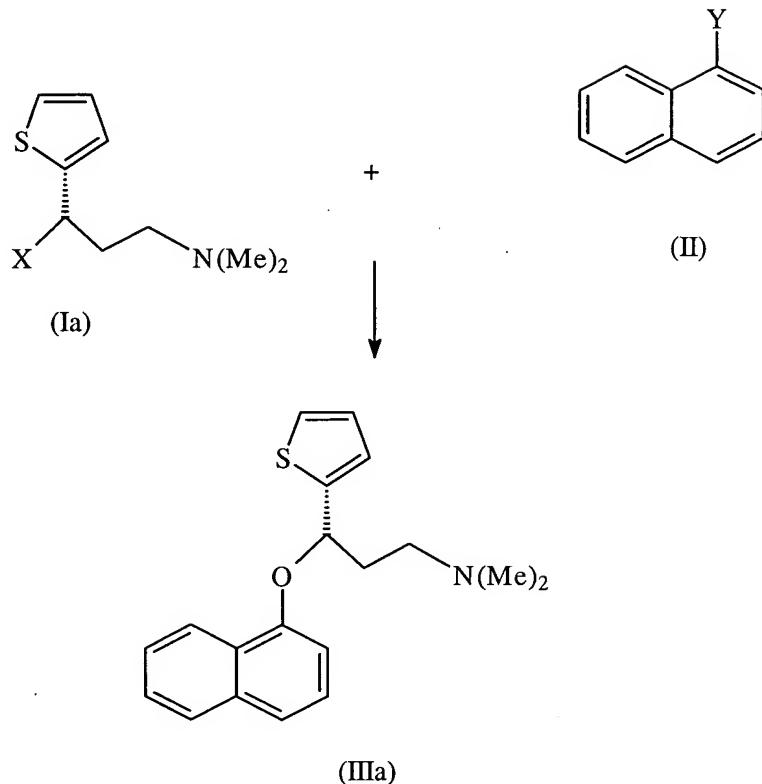

- (i) resolving racemic ( $\pm$ )duloxetine with a chiral acid in a process according to ~~any of claims 1 to 5~~ claim 1, and obtaining a mother liquor enriched in (-)duloxetine;
- (ii) converting (-)duloxetine obtained from step (i) to ( $\pm$ )duloxetine; and
- (iii) if desired, employing ( $\pm$ )duloxetine obtained from step (ii) in a process according to ~~any of claims 1 to 5~~ claim 1.

7. (Original) A process for making (+)duloxetine or an acid addition salt thereof, comprising reacting intermediate compounds of formulae (I) and (II) so as to yield a compound of formula (III), or an acid addition salt thereof:

in the presence of a base and a phase transfer catalyst, wherein one of *X* and *Y* is hydroxy and the other is a leaving group, and subjecting a compound of formula (III), or an acid addition salt thereof, to further process steps so as to yield (+) duloxetine, or an acid addition salt thereof, substantially free of (-)duloxetine.

8. (Original) A process for making (+)duloxetine or an acid addition salt thereof, comprising reacting intermediate compounds of formulae (Ia) and (II) so as to yield a compound of formula (IIIa), or an acid addition salt thereof:

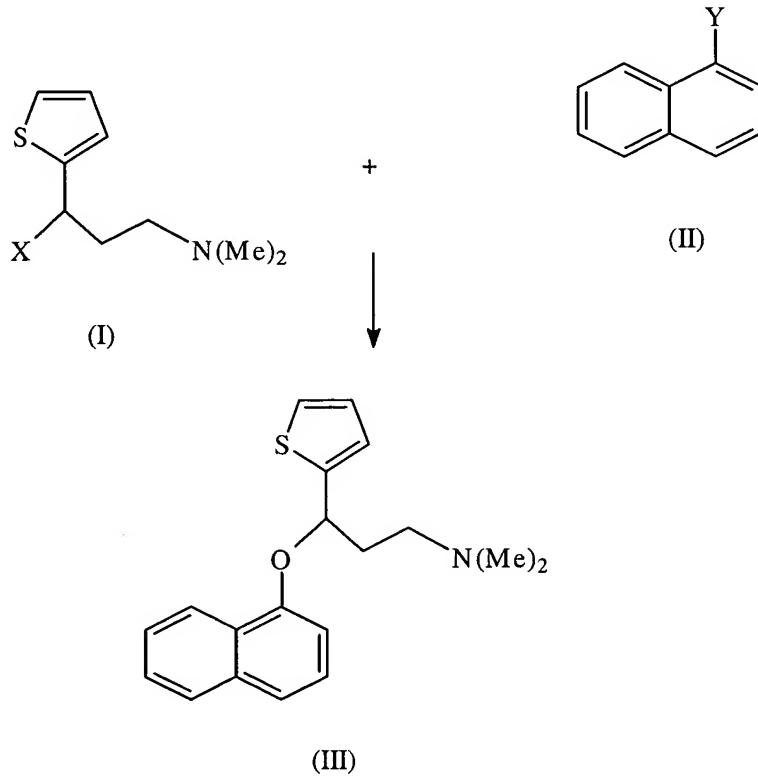

in the presence of a base and a phase transfer catalyst, where one of X and Y is hydroxy and the other is a leaving group, and subjecting a compound of formula (IIIa), or an acid addition salt thereof, to further process steps so as to yield (+) duloxetine, or an acid salt thereof, substantially free of (-)duloxetine.

9. (Currently Amended) A process according to claim 7 [[or 8]], wherein an intermediate of formula (III) or (IIIa), or an acid addition salt thereof, is converted to ( $\pm$ )duloxetine, or (+)duloxetine respectively, by demethylating.

10. (Currently Amended) A process for making (+)duloxetine or an acid addition salt thereof, which comprises:

(i) reacting intermediate compounds of formulae (I) and (II) to yield an intermediate compound of formula (III), or an acid addition salt thereof,

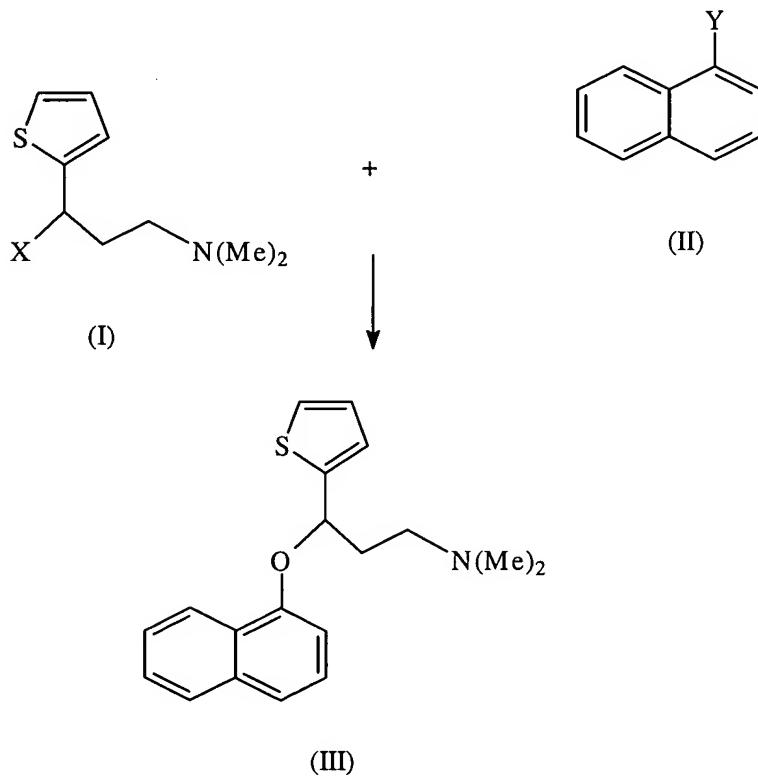

in the presence of a base and a phase transfer catalyst;

(ii) demethylating a compound of formula (III), or an acid addition salt, so as to yield ( $\pm$ )duloxetine; and

(iii) converting ( $\pm$ )duloxetine obtained in step (ii) to (+)duloxetine, or an acid addition salt thereof, employing a process according to ~~any of claims 1 to 5~~ claim 1.

11. (Original) A process for making (+)-duloxetine hydrochloride which comprises:

(i) reacting intermediate compounds of formulae (I) and (II), where X is hydroxy and Y is fluoro, followed by oxalic acid to yield an oxalate salt of intermediate compound of formula (III)

in the presence of a base and a phase transfer catalyst;

- (ii) demethylating said intermediate compound of formula (III) obtained by step (i) so as to yield ( $\pm$ )duloxetine; and
- (iii) converting ( $\pm$ )duloxetine obtained in step (ii) to (+)duloxetine by resolving racemic ( $\pm$ )duloxetine with di-p-tolyl tartaric acid so as to obtain (+)duloxetine di-p-tolyl

tartrate, substantially free of (-)duloxetine, and converting said (+)duloxetine di-p-toluyl tartrate to (+)duloxetine hydrochloride.

12. (Currently Amended) A process according to ~~any of claims 7 to 11~~ claim 7, wherein the base is selected from the group consisting of an alkali metal hydroxide, an alkali metal carbonate and an alkali metal bicarbonate.

13. (Original) A process according to claim 12, wherein the base is selected from the group consisting of potassium hydroxide, sodium hydroxide, potassium carbonate, sodium carbonate and sodium bicarbonate.

14. (Currently Amended) A process according to ~~claims 7 to 13~~ claim 7, wherein the phase transfer catalyst is selected from the group consisting of crown ethers, quaternary ammonium salts and phosphonium salts.

15. (Currently Amended) A process according to ~~claims 7 to 10~~ claim 7, wherein X is hydroxy and Y is a leaving group.

16. (Original) A process according to claim 15, wherein the leaving group is halo.

17. (Original) A process according to claim 16, wherein the leaving group is fluoro.

18. (Original) A salt of a chiral acid and (+)duloxetine, containing not more than 1% of (-)duloxetine.
19. (Original) A salt of a chiral acid and (+)duloxetine, substantially free of (-)duloxetine, selected from the group consisting of (+)duloxetine mandelate, (+)duloxetine tartrate, (+)duloxetine di-p-tolyl tartrate, (+)duloxetine dibenzoyl tartrate and (+)duloxetine camphor sulfonate.
20. (Original) (+)duloxetine di-p-tolyl tartrate, substantially free of (-)duloxetine.
21. (Currently Amended) (+)duloxetine, or an acid addition salt thereof, obtained by a process according to ~~any of claims 1 to 17~~ claim 1.
22. (Currently Amended) A pharmaceutical composition comprising (+)duloxetine, or an acid addition salt thereof, obtained by a process according to ~~any of claims 1 to 17~~ claim 1.
